

REMARKS/ARGUMENTS

Claims 1 through 32 are pending with entry of this amendment. Claims 4, 22 and 26 are amended merely to remove multiple dependency from previous claims. Claims 31 and 32 are added to maintain the scope of the originally filed, but improperly multiply dependent claims 22 and 26, respectively.

Claim 25 has been amended to include compounds selected by the method of claims 16 and 17. Support for the amendment to Claim 25 may be found throughout the specification and claims, as filed. For example, support for this amendment may be found at page 8, lines 2 and 3.. No new matter is introduced with this amendment.

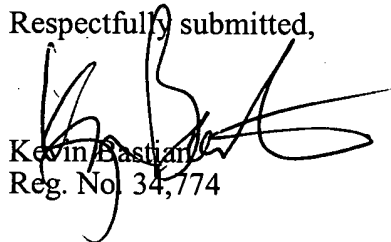

A Substitute Sequence Listing on paper and in computer readable form was prepared in accordance with 37 C.F.R. §§1.821 to 1.825, and is submitted herewith. The Substitute Sequence Listing does not include new matter or matter that goes beyond the disclosure of the International Application.

The information contained in the computer readable disk was prepared through the use of the software program "FastSeq" and is identical to that of the paper copy of the Substitute Sequence Listing.

Applicants respectfully request entry of this amendment.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 415-576-0200.

Respectfully submitted,
